

REAL BERBERINE

Why It Outsells the Competition:

- ✓ No cheap fillers.
- ✓ No low-quality cinnamon or synthetic binders.
- ✓ Only formula enhanced with humic/fulvic acids, for optimal absorption.

LeafSource® delivers what today's discerning customer demands - real, functional ingredients that actually work.

REAL BERBERINE

Why Your Customers Will Love It (and come back for more)

The Right Dose: Delivers 500 mg of pure Berberine Hydrochloride per capsule—the gold standard dose shown to support healthy blood sugar, cholesterol, and cardiovascular health.

Enhanced Effect: With Ceylon Cinnamon - not the cheap Cassia type. We use 100 mg of Ceylon Cinnamon (Cinnamomum verum)—gentler, safer, and more effective.

Absorption Advantage: Berberine is notoriously hard to absorb—but this is the only formula enhanced with Humic & Fulvic Acid (sourced from Shilajit) to dramatically boost absorption and bioavailability.

Approved Claims:

- ✓ Supports healthy cholesterol & triglycerides
- ✓ Supports glucose & lipid metabolism
- ✓ Helps maintain cardiovascular health
- ✓ Provides antioxidants
