Elemental Magnesium Blend per serving

Getting More Out Of Your Magnesium

LeafSource® Real Magnesium Powder stands out with a professional-grade, non-buffered, 4-in-1 magnesium complex combining **biglycinate**, **L-threonate**, **taurate**, and **citrate**, for full-body support. This high-absorption formula is clinically inspired, gentle on digestion, and delivers 250 mg of elemental magnesium per scoop or per 3 veggie capsules.

By combining multiple well-absorbed forms of magnesium, your supplement can provide broader, more targeted benefits - supporting sleep, brain, muscle, bones, and overall wellness that is far beyond what a single form could achieve.

Why Non- Buffered is Better?

Real Magnesium Non-Buffered

Buffered (Misleading)

100 % pure form	Mix of pure form + cheap oxide
Real Magnesium amounts means better results	Misleading - Looks higher in magnesium %
Gentle and well absorbed	Poor absorption, more stomach upset
Higher quality and transparency	Cheaper to make

Bone Health

Electrolyte Balance

Muscle Support

120 vcaps

40 Day supply
