

REAL MULTI

A 100% Whole Food Multivitamin-Mineral with Micronutrient Cofactors

For too many years, health companies have been supplying vitamin formulas that are derived from 100% synthetic and isolated nutrients that are void of their essence, micronutrient cofactors. Our new hybrid freeze-drying and water-extraction technology has now made it possible to derive vitamins and minerals directly from foods, along with their micronutrient cofactors. **LeafSource® Real Multi** uses **10 organic super-foods** to develop a multivitamin-mineral formula that delivers **21 real-food vitamins and minerals** in a one-a-day capsule, that meets 100% of the RDA values of each nutrient.

FINALLY, There is a true natural **REAL MULTI** available!
